

## Week Without Violence calendar of Events for the Northern Metropolitan Region 2019

The Week Without Violence (WWV) is a worldwide campaign that occurs in the third week of October, each year. This year's WWV will be held between 14-20 October 2019.

The campaign aims to raise community awareness of family violence, encourage healing through art and strengthen local connections and relationships focused on the prevention of violence against women. WWV activities have been facilitated across the northern metropolitan region of Melbourne through local family violence networks since 1999.

Week Without Violence activities throughout the northern region include Clothesline Project t-shirt painting activities and workshops, stalls, displays, and community events. For more information, please contact Women's Health In the North [info@whin.org.au](mailto:info@whin.org.au)
